

# **INSTRUCTIONS FOR USE OF CONSTRUCTION SPECIFICATION**

## **BUILDING ENVELOPE IMPROVEMENT, CODE 672**

1. Applicability

This specification covers the modification or retrofit of the building envelope of an existing agricultural structure to reduce energy use by regulating heat transfer.

2. Items to be included in the "ITEMS OF WORK AND CONSTRUCTION DETAILS" or on the Construction Drawings.

- a. Plan drawing and description of the existing building envelope, and the modified or retrofitted building envelope and related components or devices, as applicable.
- b. Description and characteristics of materials to be applied to the building envelope.
- c. Details of ventilation and sealing provisions associated with the building envelope.
- d. Requirements for disposal of replaced materials, if applicable.
- e. Documentation requirements to determine energy savings associated with practice installation based on current heating/cooling requirements of the agricultural building.
- f. Location of utilities and notification requirements.
